ABOUT THE UZI[®] PRO SMG

LOOKS LIKE AN UZI, SHOOTS LIKE A RIFLE

The UZI sub-machine gun (SMG) was first introduced during the 1950s and was placed in service by the IDF in 1956. Due to its manageable and advantageous compact size, reliability and firepower, the UZI was immediately incorporated as a frontline weapon used by the IDF Elite Forces. The UZI is one of the world's most iconic weapons and its popularity continues even today. Over 2 million units have been sold worldwide.

The Mini and Micro UZI versions were very popular and were developed for Special Units, Law Enforcement Agencies, and Special Police entities specializing in Close Quarters Battle (CQB).

The UZI PRO is the latest evolution featuring the most advanced firearms technologies. It is a major step forward for the UZI family in terms of the benefits gained from modern materials and design concepts in which modern polymers, MIL-STD 1913 (Picatinny) rails, an ergonomic shoulder stock and a foldable hand grip were incorporated to obtain an up-to-date SMG.

The weapon was originated based on the user experience of the Israeli Special Forces and has been redesigned to be lighter, more accurate, more reliable but still concealable.

All of these have been accomplished without compromising the functionality and reliability associated with the famous and legendary UZI. Since its first development the UZI continues to uphold the technological standards of the 21st century.

ADVANTAGES AND BENEFITS

- Short and compact: easily concealed for special operations
- Closed bolt operation for maximum accuracy
- Integral picatinny rails for optical sights, devices and accessories
- Magazine release relocated in new polymer pistol grip for fast and simple magazine changes
- Cocking handle located on receiver side, allowing full length picatinny rail on top receiver cover
- Three safety mechanisms
- Modern ergonomic design
- Automatic and semi-automatic operation modes
- Ideal for VIP protection

FEATURES

- Blowback-operated
- Simple maintenance
- Easy-to-use by right of left-hand fighter
- Silencer - option (rapid assembly)
- Adjustable shoulder stock with mounted cheek rest
- Foldable assault grip
